Dear Friends:

Welcome to our room! Our biggest goal for your child is to have fun, make friends and expand their current knowledge. Our class runs a full, structured and consistent daily schedule. We are always implementing ways to compliment your child's strengths and helping them to continually grow. Our various centers in the room are set up to create familiarization and promote imagination. A three year old yearns for independence through their play and actions with others. We as teachers are here to help guide them in this process through weekly activities and free play.

Located outside our room is a bulletin board which we have our nap chart, weekly lesson plans, monthly newsletter and lunch/snack menu posted.

Our parent files are located just inside our room. These should be checked daily for artwork and other information.

When the weather is nice we will be playing outside. It is very important that your child have a pair of closed-toed shoes with them at all times.

Once or twice a month your child will have a leader day. On this day your child will be responsible for bringing in morning snack. We have snack information attached to this packet. Please bring enough snack for 19 servings. Your child is also allowed to bring a book to share with the class.

If your child will be eating breakfast with us, they need to be at Camelot no later than 7:30 a.m. as the kitchen closes at 7:45.

As always we are open to your questions, concerns or suggestions. We hope this journey through learning and play is as exciting for you and your child as it is for us.

Thank You,

Amy & Amanda

Meet the Teachers

I am Amy Smith and have been employed at Camelot since August 2007 and have worked with a variety of ages. I started in the three year old room in 2015. In October of 2018 I started an adventure with Miss Amanda in the three year old room. I have a degree in Early Childhood Education. I believe children learn best when they are in a safe, loving environment with opportunities to explore new activities. I live in Theresa with my husband Wendell and our very spoiled dog Sammy. In my spare time, I enjoy crocheting, hiking, camping and spending time with family and friends.

My name is Amanda Henker and I recently joined Mrs. Amy in Room 5 here at Camelot. I started working with children as soon as I was done with High School and have worked in several centers throughout the years. I have roughly 5 years experience and have worked with all age groups. I continue to further my education and do all that is necessary to be the best that I can be for your amazing children.

I am from Waupun and currently live there with my wonderful boyfriend, Tony and his three crazy kiddos. We have a yellow lab named Tank and a big, furry, black cat named Rosie. In my free time I love being crafty and painting old wooden signs. I also love ice fishing and cooking! You may also say I'm obsessed with the season fall and everything that comes with it!

I look so very forward to continuing this journey here at Camelot with all of your children. Learning and growing with them is something I will forever cherish.

Amy & Amanda
